

CLAIMS

1. A valve assembly comprising:
a replacement valve; and
a spring-aided anchoring structure comprising a plurality of members and a plurality of springs therebetween.
2. The valve assembly of claim 1, wherein said valve is positioned internally to said anchoring structure.
3. The valve assembly of claim 2, wherein said valve comprises an inflow annulus, an outflow annulus, and a plurality of leaflets.
4. The valve assembly of claim 3, wherein said inflow annulus is scalloped.
5. The valve assembly of claim 1, wherein said members comprise peaks for the attachment of said valve and valleys for lodging the anchoring structure at a location near a sinus inflow annulus.
6. The valve assembly of claim 5, further comprising a plurality of anchoring sections.
